Ancient Greek Architecture

Aim: Pupils will explore Ancient Greek architecture through sketchbooks, collage and sculpture.

Step 1: Introduce in Sketchbooks

Consider asking pupils to make an Olympic project sketchbook using one of the "[Making Sketchbooks](#)" resources.

Begin by introducing pupils to the first ever Olympic stadium in Olympia with "[Talking Points: Olympic and Paralympic Stadiums](#)". Use the questions to prompt discussion.

Follow on in sketchbooks with a drawing activity, exploring architecture using "[Drawing Source Materials: Ancient Greek Architecture](#)" as a drawing prompt.

Invite pupils to create drawings inspired by the

source material using the "[Show Me What You See](#)" method. You can find a case study for this method inspired by [Anglo Saxon architecture](#) which will need to be adapted.

Step 2: Drawing

Adapt the "[Houses From Around The World](#)" resource to create textured collage drawings inspired by Ancient Greek Architecture. Invite pupils to look at the range of marks and lines made in sketchbooks in the previous session and build upon them.

If you would like to focus on making skills you may like to skip this step.

Step 3: Making

Create Sculptures with Personality inspired by the [“Sculptures with Personality, Inspired by Anglo Saxon Houses”](#) resource.

Making “sculptures” rather than “models” enables pupils to grow their ideas in individual directions, using the architecture of Ancient Greek buildings as a starting point.

Step 4: Reflect

[Use the resource here to help you run a class](#)

[“crit” to finish the project.](#)

Invite children to display the work in a clear space on tables or on the wall. Recap with them about the exploration – where they started, what they discovered and what they enjoyed.

If you have class cameras or tablets, invite the children to document their work, working in pairs or teams.
