

Printmaking in the Primary National Curriculum

The following AccessArt resources are designed to introduce pupils to various aspects of printmaking, and to help teachers plan and deliver printmaking in the primary National Curriculum.

They have been presented in order of accessibility - quick foam printing being an easy entry point - intaglio printing being more complex and needing specialist equipment. However it is important to stress that just because a process is accessible (such as monoprinting) should not mean that it should not be revisited, or is not appropriate, for older or more able students.

Guidance

[Back to Curriculum Planning for Art](#)

The resources below are accessible to [AccessArt members](#). Please consider [joining AccessArt](#) (£42 for a single user, £96 for a multiuser membership). AccessArt is a UK Charity and all

membership fees are used to develop further resources.

Year 1 (age 5) through to Year 6 (age 11)

Accessible Printmaking Techniques PDF

[_PDF download](#) which describes simple printmaking techniques including block printing, linoprinting, monoprinting and screen printing, which can be explored by pupils with minimal equipment.

Carbon Paper Monoprints

[_A](#) low tech, low mess, way to make monoprints. Pupils draw through carbon paper to create a monoprint on the paper below. Colour can be added by using oil pastel on the carbon paper. Lots of potential to encourage children to diversify their mark making. Suitable for all year groups.

Printing processes that use everyday

materials to develop a creative focus for anyone, anywhere By Ruth Purdy

Here are some starting points from which your really accessible printing projects can begin; from printing from plasticine to using everyday objects to make prints. Enjoy!

Painting the Savannah by Chloe Williams

Working on a ambitious scale, artist Chloe Williams shows what can be achieved with printmaking techniques in an early years setting.

Poetry and Printmaking by Ann Bridges

Printmaker Ann Bridges shares her love of poetry and printmaking in this illustrated resource, which enables young children to make imagery inspired by poetry.

Monoprints

Using monoprints to free up the drawing process. Simple process using acetate, printing ink, rollers. Pupils draw on top of the acetate and the pressure transfers the “print” onto the paper below. Pupils can experiment with layering drawings and varying the pressure of their mark-making. Monoprinting is an intuitive, freeing process which generates lots of experimental work. Suitable for all year groups.

Aluminium Foil Printing by Paul Carney

Artist Paul Carney shows us Aluminium printing. Aluminium printing provides a low cost and more manageable alternative to the process of etching and engraving used in industry and throughout history.

Mayan Tabletop Eraser Printing Project

Little hands explore carving with lino-tools to create printing blocks out of erasers to create repetitive designs on fabric.

Making Collagraphs

Using cardboard, string, found objects and pva glue to create a “plate” ready for printing. If no printing press is available, you can use the pressure of

your hand, or a clean roller. Children can explore one or multi-colour printing. The collagraphic plates are also beautiful objects in their own right. Suitable for all year groups.

Block printing: Creating repeat patterns using letters with Andy McKenzie

Working with artist Andy McKenzie to create repeat patterns of letters using block printing.

How to Make a Tessellated Design

How to make a simple tessellated design using a cardboard stencil.

Printmaking with Salvaged Sticky Back Aluminium Foil, Mixed Media and Cardboard

_A dynamic printmaking session using sticky-back foil to make printing plates and a car to apply print pressure!

Collagraphs Inspired by Architecture

_Students create collagraphs inspired by architecture with Paula Briggs.

Year 5 (age 10) and above

Eraser Printmaking

_Using linocutting tools to make printing plates from erasers. Simple, repeatable images which can be used to explore pattern or to make logos. Due to the

sharp tools suitable for Year 5 children or older.

Collagraph, Collage and Stitch: Make a Image of Your Home on Fabric

[_Artist Andrea Butler](#) shares how to create a collagraph and print on fabric.

Making a Collagraph Print by Suzie Mackenzie

[_Artist Suzie Mackenzie](#) shares her collagraph process with AccessArt.

Lino Print

Easy (Speedy) carve lino now means it is easier for children to carve and print with lino. Pupils can print in a single colour, or experiment with more colours. The area carved away does not print, so linoprinting gives pupils the opportunity to explore negative and positive/reverse designs. Due to the sharp tools needed to carve lino prints this activity is more suitable for children in Years 5 (age 10) and above. Ensure you use safety cutting boards to encourage pupils to cut away from themselves.

LinoCut – An Artist’s Perspective

Printmaker James Green shares his passion for making linocuts.

Exploring Cyanotype by Maru Rojas

Artist Maru Rojas describes how to make cyanotype prints by resting plant material on sensitised paper, or making plates from acetate.

The Intaglio Process: An Artist's Perspective

Artist Neil Woodall shares how he makes an intaglio print.

AccessArt Resources to Support Printmaking

AccessArt is an evolving collection of resources and further resources are being added over time. Please [register with AccessArt](#) to receive updates.
