

Exciting Colour

[Rachel Parker](#) is a surface pattern designer based in the UK. Rachel creates patterns for a range of products, from rugs to tables to textiles. As part of Rachel's design process she keeps a 'Moodboard Book' which is a constant source of inspiration for colour palettes when she wants to create new designs.

In this selection of resources Rachel explains how she collects colours, makes creative decisions and brings her moodboard to life in her fabric designs.

Take inspiration from Rachel and create your own moodboard sketchbook, filled with colours that bring you joy!
