[<< Find Out More About The AccessArt Primary Art Curriculum <<](#)

If you are interested in following the [AccessArt Primary Art Curriculum](#) as an art scheme in your school, it's important that you understand the philosophy and intent behind our work, to ensure that it matches and informs your own understanding and practise of how best to teach art in your school.

Our aim is not just to help educate pupils, but also to help build staff skills, confidence and enjoyment in teaching art, whatever their starting point. Consider running staff meetings where you share the below links, and once you are a member of AccessArt, [encourage staff to attend our free CPD programme.](#)

There are many ways to teach art, and there is no "right or wrong" approach. To help you understand more about our approach, and to help you decide if it is right for your pupils and teachers, please visit the resources below.
