

Jonathan Ford – Sculptor's Sketchbooks

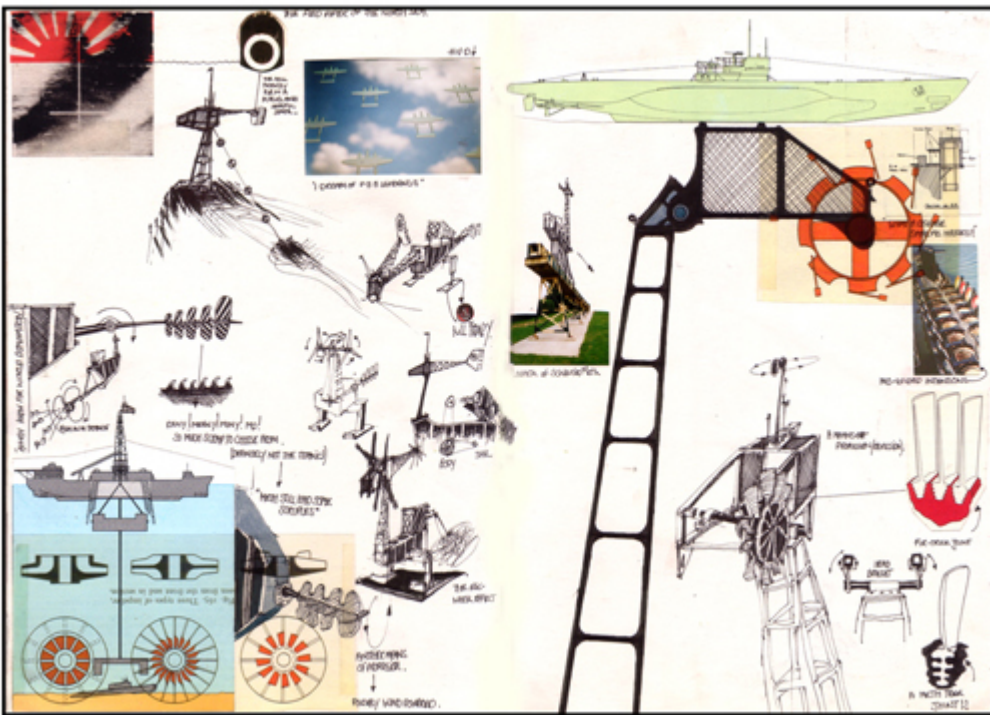

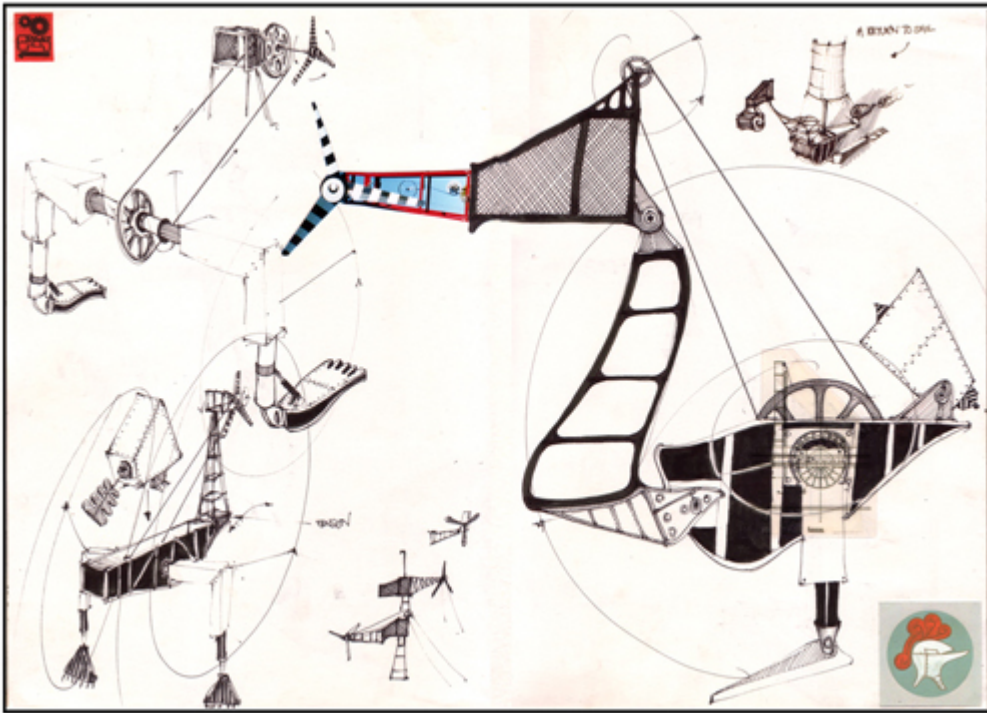

Jonathan Ford, sculptor, shares his sculptor's sketchbooks.

"All drawings were part of the evolution of *Meth V*, a creature who now lives at the Jerwood Sculpture Park. Processes involved the collection of boxes & boxes of images from magazines, books and pamphlets. The images were then cut with scissors and drawn onto or transformed into part of *Meth V*. No scanning or computer involvement was used for these images."
