Artist Educator Emma Davies shares an inspirational resource, to enable students to interpret the landscape through the construction of colourful, shallow relief, cardboard sculptures.

This project was shared with AccessArt as part of the [40 Artist Educator Project](#), funded by Arts Council England, aiming to highlight and celebrate artist-led teaching and facilitation.

Layers in the Landscape by Emma Davies

This workshop was one of a series over the course of the year in which we were investigating the theme of Layers – physical and metaphysical as a means of exploring landscape, imagination and materials.

When working with the young people on the project, it is important to have clear goals and for me high targets, but with the open mindedness to understand that the young people will follow their own path and that it is important to facilitate this.
