Painting

Welcome to AccessArt: Painting

By facilitating an exploration of different painting media, learners understand through experience how the medium acts for them. We can then help all learners explore line, colour, shape, mark making and composition. Alongside this material exploration, learners build understanding of the intention behind the painterly marks they make.

Build understanding of painting as an activity and

as an outcome, and develop skills to help facilitate a creative and inclusive exploration of painting in others.

Dip Your Toes Into Painting!

Explore these sample resources to help introduce painting to your learners. All these resources can be adapted to all settings and all ages

Working on black paper

Expressive painting and colour mixing

Drawable: Exploring Watercolour exploration
