ABC (ART BASICS for CHILDREN)

Based in Belgium, [ABC](#) is situated on the border of art and education as a laboratory for aesthetic experiences, creative development and artistic awareness.

“Everyone is entitled to a ‘poetic life’. With this ideal in mind, ABC uses the artistic process as a reflective tool for young and old to integrate art into everyday life. To this end we collect the most inspiring books, ideas, visuals and materials in the field of art and education and unlock this collection in various ways (studios, workshops, publications etc.). And we are also working on a new, interdisciplinary teaching culture in which art (education) is woven into all areas of the curriculum.”

AccessArt has collaborated with ABC to present at

[Publiq.be](#) to an audience of art and cultural educators.
