

Rowan Briggs Smith

rowan briggs smith

“I love the visual arts, especially drawing, painting and photography. I like working digitally, taking and editing photographs and also creating work directly in photoshop. But I also really like the physicality of working with paint (in particular watercolour and acrylic).

I enjoy portraiture, and also like urban sketching. I keep a sketchbook at all times to capture things from life, and I also enjoy trying to push myself to work on larger scales to keep my work free and expressive.”

Rowan is an original member of the [#BeACreativeProducer](#) Project.
