The AccessArt Offer To Primary Schools

AccessArt is a UK Visual Arts Education Charity and we are also a Subject Association for Art. We have over 22,000 members using our resources in schools and community settings, and over 41,000 subscribers.

What makes us special? We are passionate about what we do. We have just one charitable aim which is to further the advancement of visual arts education, and through our creative vision we are proud to help support the visual arts education of hundreds of thousands of individuals. Our approach is trusted also by many Universities who use our resources within arts teacher training contexts.

We offer schools access to the [AccessArt Primary Art Curriculum](#), a rich, diverse, engaging and highly flexible curriculum. We also offer [ongoing CPD](#) to build teacher understanding and enjoyment, and you can also use our [resources](#) and approach to expand upon your own planning or scheme.

We are a self-supporting charity and our independence gives us strength of vision and autonomy. We also work with experts in the field who help support the considerable in-house expertise. We do not create resources for anyone else – instead we remain true to our vision, knowledge and experience. Explore our [Core Values](#).

The AccessArt Primary Art Curriculum – Impact & Evidence Autumn 2023

Since the launch of the new AccessArt Primary Art Curriculum in 2022, we have seen a large number of new members sign up to use the resources in schools to help inspire and enable a rich, diverse and flexible visual arts curriculum for all pupils.

In the summer of 2023 we invited users to complete a survey to feedback their experience of using our Primary Arts Curriculum in their school. [See the report here.](#)

If you’re thinking about using AccessArt as your Primary Art Curriculum provider in Autumn 2024 [watch this session recording](#) where we share the ethos and practice of the AccessArt Primary Art Curriculum.

In this recording we talk through how you might introduce AccessArt to staff, how you can transition from your existing scheme or plan, test driving activities with children and teachers, and how you can prepare the materials and resources you will need to deliver our curriculum.

Organise a staff meeting to introduce staff to the curriculum.

You can find a presentation [here](#), created with an introductory staff meeting in mind.
