Eric Carle

Eric Carle is the author and illustrator of over seventy picture books for young children. The most well known book from this collection is *The Very Hungry Caterpillar*.

As a child, Carle's dad would take him for walks through meadows, memories which heavily influenced his illustrations.

Visit [Eric Carle's website](#) to explore more of his work.

Find out [how Eric Carle paints tissue paper](#).

If your school has access to YouTube you may want to show the first 7 or so minutes of this documentary.

Questions to Ask Children

Have you read *The Very Hungry Caterpillar*? (If you have the book in school it may be a nice idea to pass it round the class.)

What do you like about Eric Carle's work?

How does the caterpillar in Eric Carle's work make you feel?

What's your favourite insect? Why?

What is a Cyanotype?

A cyanotype is a photographic process which results in a cyan coloured print. The process involves a combination of iron salts which are then exposed with Ultra Violet light. The surface

for the print then needs to be washed in water oxidise to achieve the blue.

The process was developed in the 1800s and is still used today.

Explore the sources and images below to find out how cyanotypes can be used.

Lotte Reiniger was a German animation pioneer in the early 20th Century. Reiniger's work focused on silhouette animation, she made over 40 films

throughout her lifetime.

Reiniger invented the first multi-plane camera, an invention which Walt Disney would later go on to adapt and patent for himself.

Reiniger enjoyed retelling fairytales through silhouette animation and went on to create animations for Cinderella, Thumbelina and also spent 3 years making the first feature film *The Adventures of Prince Achmed*.

You might recognise her influence in more recent films, such as in the credits of the 2004 film 'A Series of Unfortunate events' or in the 'Tale of three Brothers' in *Harry Potter and The Deathly Hallows pt 1*.

Watch the videos below to find out more about the work and life of Lotte Reiniger.

Watch this video to find out more about her process.

Questions to Ask Children

Do you like Lotte Reiniger animations?

How do her animations compare with modern day Disney and Pixar animation?

Can you imagine why they were so ground breaking at the time?

Is there a story that you would like to see

animated in this way?

How might you make a character seem excited through body movements alone? What about sad?

Thumbelina by Lotte Reiniger

Show this short clip to your class.

Questions to Ask Children

How would you describe the movements of the puppet?

Take a guess at how many different pieces had to be cut out for the puppet to dance?

Where do you think joints had to be made for movements?

Watch the clip again and ask children to create blind and continuous line drawings (not looking at the page) in a sketchbook of the puppet dancing. Ask them to look at the arms and legs and just draw whatever movement grabs their attention as the clip plays.

Watch clips of the credits animation for the 2004 film 'A Series of Unfortunate Events' and inspire discussion using the questions below.

Questions to Ask Children

Introduction

The following videos and weblinks explore different uses of projection mapping.

Projection mapping is a type of digital installation art. Artists project digital film or imagery onto unusual surfaces such as buildings or irregularly shaped objects, creating optical illusions.

Projection mapping requires spatially mapped specialist software that allows designers to mimic the environment that it is being projected onto, whilst playing with dimensions and movement of static objects.

Music and Projection Mapping by Light Odyssey

“2018 Light Odysee transformed the Iconic Empress Ballroom in Blackpool to a 2D and 3D projection mapping canvas for seven different animations. Over 20 projectors were set up to cover the huge space of the ballroom, resulting in a spectacular light stage for the animations.”

Questions to Ask Children

How have the animations interacted with the architecture as well as the music?

How does it make you feel?

Do you think that the animation adds to the music or does it distract you? Why?

Projection Mapping and Architecture

This video contains flashing imagery.

**A projection mapped piece commissioned by People's Association Singapore for the Passion Arts initiative. Video: Brandon Tay/ Chew Ming Wee
Sound: Safuan Johari**

Questions to Ask Children

How does the animation interact with the building?

Does it remind you of anything?

Is there an interesting building within your community that you would like to put a projected animation or film onto?

The Circle Project by Molly Haslund

Teacher's Notes

"Molly Haslund ventures out into the city wearing grey: a grey suit, grey socks and grey shoes so that she blends in with the tarmac and the pavement. She carries a huge pair of compasses much taller than herself. She stops somewhere and starts drawing a white circle on the ground. She completes the first circle and then moves the pair of compasses and starts drawing a new circle that overlaps the first one. She draws a third circle and stands in her grey shoes in the middle of the circle for a moment before snapping the pair of compasses together and moving on."

<https://www.mollyhaslund.com/circles-2013-2>

"... The focus is on the physical action, on the movement of the circles, and the patterns emerging and disappearing again – and of course the effect grows with the number of participants. on the other hand, if you want to draw alone, you can

just withdraw a little from the rest. A bit like on the dance floor.” [Molly Haslund](#)

Watch the video with the pupils, and look at the images below. Find questions to prompt discussion at the end of this resource.

Circles, Molly Haslund, 2014, Art Week, Superkilen, Copenhagen, Denmark, Photo by Matilde Haaning

Questions to Ask Children

How would you feel if you came across these circles in your street or playground, without knowing who had made them or why? What would you do? Would they change the way you move?

How do you think Molly, the artist, chooses where to make her circles?

How could you make similar circles in your playground, using chalk tied to sticks?

How would the circles you make join up with the

circles your friends make?

What would other pupils in your school think if they discovered your circles? What do you think they would do?

What other shapes could you make with your body in the playground? Would you need tools?

If music played would you make different shapes? How would the shapes be different?

Talking Points: What is Screenprint?

A collection of imagery and sources designed to introduce children to the

process of screenprint.

Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

If you are having issues viewing videos it may be due to your schools firewall or your cookie selection. Please check with your IT department.

Screenprint

Teachers Notes

Screen print is a printing process in which a mesh (silk screen) is used to transfer ink to a surface such as paper or fabric. An image is exposed into the mesh with UV light. Once exposed some areas of the mesh will be blocked and some will allow ink to pass through.

Watch the video below to show children the process in action before trying our [Screen Print Classroom Hack](#).

Monotype

A monotype is a simple printmaking process that is used to create one off prints. Sometimes artists will create a 'ghost' print from whatever is left on the printing plate after an initial print has been taken.

There are many ways that a monotype can be made. A metal or plastic plate is painted onto with any material that will transfer marks to paper under pressure.

A monotype is a stand alone print whereas a monoprint is a print that is part of a series.

Find our collection of monotype resources [here](#).

Faith Ringgold

Faith Ringgold is an artist and activist who grew up during the Harlem Renaissance. Ringgold communicates personal narratives, history and politics through her painted quilts.

In this video Faith Ringgold discusses how she fought to get women and African-American artists into museums.

Watch this video to see how Ringgold combines cloth, paint and thread to make her quilts.

See more at [Ringgold's website](#)

Questions to Ask Children

Faith emphasises the importance of focussing upon personal experience through art; How does she do this and why do you think this is important?

Are there things you care about that you'd like to

make art about to help you share your thoughts/views? What's important to you?

"When they're looking at my work, they're looking at a painting and they're able to accept it better because it is also a quilt." – Faith Ringgold

Why do you think people are more accepting of a quilt than a painting? What do you associate with quilts?

Questions to Ask Children

How many processes can you identify in the first video? Why do you think Shepard uses so many different processes/mediums?

When you look at Fairey's 'The Black Hills Are Not For Sale' what do you see?

If you don't know about the Black Hills can you still figure out what this artwork might be trying to communicate?

Why is it important for artists to create work that questions what is going on in the world?

Do you think that Faireys work is successful in communicating important messages? Why do you think this?

A Map of Days by Grayson Perry

“Grayson Perry RA created this map of a walled city as a self-portrait for an exhibition at the National Portrait Gallery. He said ‘I thought the walled city was a good metaphor – the wall, I suppose, can roughly be interpreted as your skin. But like any city, it’s dependent on the landscape it sits in as well.’ “ [RA](#)

[See the Map on Google Arts & Culture.](#)

[Interview about the making of the map.](#)

Note for teachers on adult content: Please be advised that from 0.24 to 0.39 and 1.34 until 1.57 of this video, there is inappropriate language shown on the map. You may wish to show up to this point or to skip past the shot of the language in question.

Questions to Ask Children:

How does Grayson Perry use text in the map?

Can you find text on buildings as well as street names? How do you think he decides which text to make small, and which to make larger?

How much does Grayson Perry reveal about himself through the map?

Can you spot any symbols or visual metaphors?

Hogwarts Maps

There are many maps inspired by Hogwarts, the most famous of course is the Marauders map.

Use the sources below to focus a conversation with children about the typography and design of the highly visual maps.

Questions to Ask Children:

Why do you think the designers chose the typography they did for the diary and map?

What kind of feeling are they trying to create?

How do you feel when you look at the map?
