

Talking Points: Bridge Design

A collection of imagery and sources designed to explore bridge design.

Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

If you are having issues viewing videos it may be due to your schools firewall or your cookie selection. Please check with your IT department.

This resource is free to access and is not a part of AccessArt membership.

Bridge Design

Architects often use bridge design as a way to showcase their innovation. Many bridge designs entered for competitions never get built – but the ideas behind them move forward ideas about contemporary architecture.

Explore the videos below to focus a discussion about what is possible.

Questions to Ask Children

What do bridges do?

How can bridges represent the communities they connect?

Are bridges just about destinations? Or are they about journeys?

Is there a limit to what a bridge can be?

Is there a limit to the materials you can use?
