

# Talking Points: Carnovsky

A collection of sources and imagery to explore the work of Carnovsky.

*Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.*

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

\*If you are having issues viewing videos it may be due to your schools firewall or your cookie selection. Please check with your IT department.\*

## Carnovsky

Carnovsky is a Milan-based art and design duo comprised of Francesco Rugi and Silvia Quintanilla.

RGB is a work about the exploration of the “surface’s deepness”.

RGB designs create surfaces that mutate and interact with different chromatic stimulus.

Carnovsky’s RGB is an ongoing project that experiments with the interaction between printed and light colours. The resulting images are unexpected and disorienting. Colors mix, lines and shapes entwine and not completely clear. Through a coloured filter (a light or a transparent material) it is possible to see clearly the layers in which the image is composed. The filter’s colours are red, green and blue, each one of them serves to reveal one of the three layers.

## Questions to Ask Children

Describe what you see.

How does it make you feel when you see the image change before your eyes?

How would it feel to be in that space, interacting with the sculpture?

What do you think the artists are trying to do through the artwork?

Why do you think that light has an effect of specific colours?

## This Talking Points Is Used In...

Pathway: Brave Colour

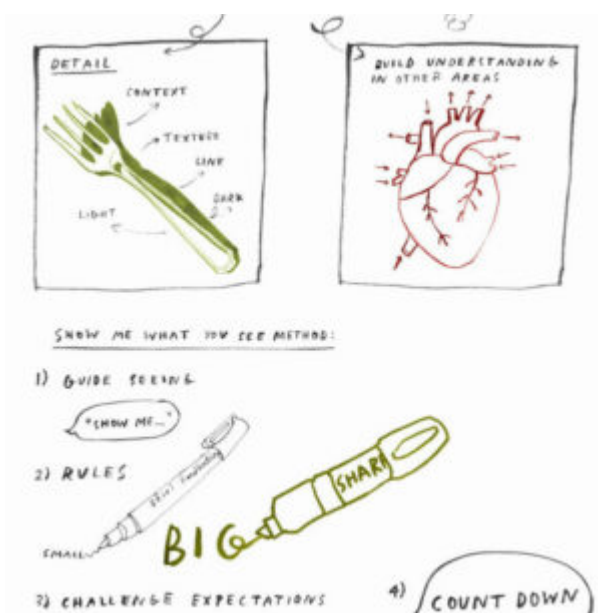

This is featured in the 'Brave colour' pathway

using sketchbooks to make visual notes
