

Talking Points: What is Composition?

A collection of sources and imagery to explore the question 'what is composition?'

Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

If you are having issues viewing videos it may be due to your schools firewall or your cookie selection. Please check with your IT department.

Composition is the arrangement of different elements in a piece of artwork.

As well as positioning, elements like shapes, lines and colours can have an impact on composition.

Composition addresses the relationship between these different elements. Some artists aim to create a balanced composition in their artwork whilst others may choose to bring things to the viewers attention by creating imbalance.

Why is Composition Important?

Whether it is a painting, drawing, photograph, print or even a piece of sculpture, the way the

elements are arranged impact upon how we respond to the piece of art. The artist might be trying to convey an emotion, or communicate a message, and artists use tools they have through composition to help sell those “messages”.

Throughout history, composition can be seen as an indication of the period or artistic movements that a piece of art has been created in.

Focal Point

The focal point is the area of the artwork which your eye is drawn to. The artist might use placement to draw your eye to an object (i.e. where the object is on the page), or they might use colour or value to draw your eye in.

How does the artist draw your eye to a focal point in the illustration below?

**Interior of the Temple of Abou Simbel Nubia
illustration by David Roberts (1796–1864)**

What is the focal point for you in the paintings below? You might have a different focal point to your friends, or you might even have more than one? Where are your eyes drawn?

Little Girl in a Blue Armchair (1878) by [Mary Cassatt](#).

Johannes Vermeer's The Lacemaker (ca.1669–1671)

Balance / Imbalance

Sometimes the elements of an artwork lend to a sense of calm. This is usually because the artist

has intentionally balanced colours, shapes and values.

In other artwork the artist deliberately makes us feel uneasy by throwing us off balance, by creating a sense of chaos...

Improvisation 35 (1914) Wassily Kandinsky

Rule of Thirds

Sometimes artists divide rectangles into a grid of 9 – 3 rows and 3 columns.

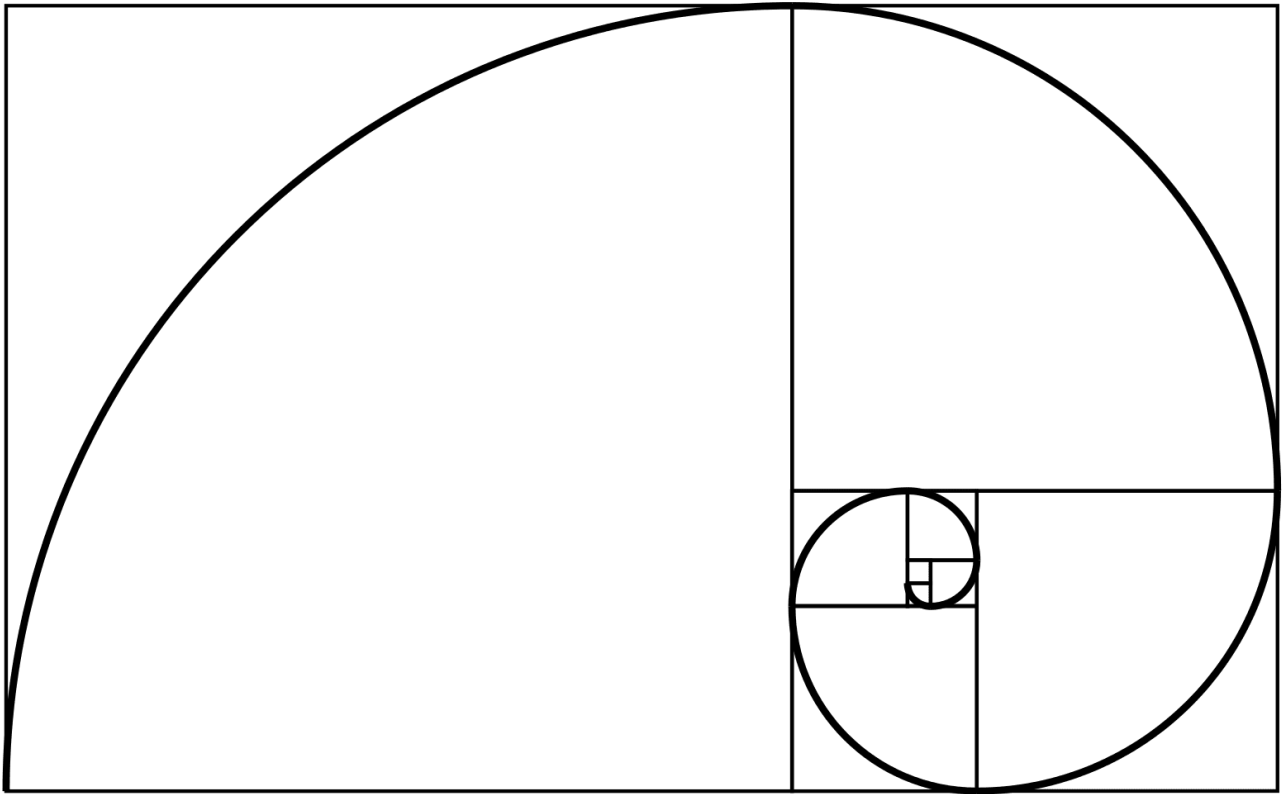

When working with landscape for example, artists might choose to place the horizon along one of the grid lines.

Jalais Hill, Pontoise (1867) by Camille Pissarro.

Golden Ratio

The Golden Ratio is a spiral and it can be found in nature and art.

Can you spot how the Golden Ratio is used in the

“Katsushika Hokusai’s The Great Wave” above?

Classical Composition

Within the classic tradition, artists would create a sense of balance by arranging elements in geometric shapes such as triangular compositions.

Foxhound (1760) painting in high resolution by George Stubbs. Original from The Yale University Art Gallery.

Questions to Ask Children

What can you see in the foreground/background of the painting?

How do the colours vary from the foreground to the

background? Why do you think these choices were made by the artist?

Where is your eye drawn to in this painting? What do you see next?

Can you see any triangles in the composition?

Symmetry

Can you see how symmetry has been used in the still life below by Camille Pissarro?

How does this image make you feel?

Think about the colours AND the shapes, and where they are placed.

Still Life with Apples and Pitcher (1872)
by [Camille Pissarro](#)

Abstract Art

Art movements such as cubism and abstraction redefined the rules of composition.

Artists such as Jackson Pollock opted for 'allover composition' which considers using the whole canvas instead of top, bottom and centre.

Watch from moment 2:29 to find out how 'allover'

painting differed to more classic painting styles.

Questions to Ask Children

How does this vary to the classical way of painting?

Can you see a foreground or background?

Which part of the painting is your eye drawn to first? Where does it travel to after?

Which style of composition do you prefer and why?
