

# Team & Trustees Celebrate 25 Years

AccessArt is a truly digital organisation – we have no offices and all [team](#) members work remotely. It's been 50 long since we met up in person, and it was fantastic to meet up with the Trustees and the team members who could make it for two days in York.

We reach our 25th year with nearly 23,000 members and over 38,000 subscribers, and the conversation was far reaching, insightful, celebratory and ambitious. We're excited for the years ahead. If you are already part of our journey thank you, and if not please [find out more about how we are celebrating 25 years](#) and join us!
